

An international comparison of technology utilization in an aged care setting

Project of:
The University of Missouri
Sinclair School of Nursing
Columbia, Missouri, USA

Macquarie University
Centre for Health Systems and Safety Research
NSW, Sydney

Project Funding: Sinclair School of Nursing Faculty Endowment
Project Title: An International Report of Health Information Technology in NSW Australia
Principal Investigator (PI): Professor Gregory L. Alexander
Co-I: Professor Andrew Georgiou; Anne Livingstone

Background

Technology Roadmap for Aged Care in Australia June 2017

- Enabling consumers to use technology
- Calls for increased consumer choice and control in decision-making
- Aged care organisations will need to uptake IT
- Upskill the aged care workforce's technology literacy.

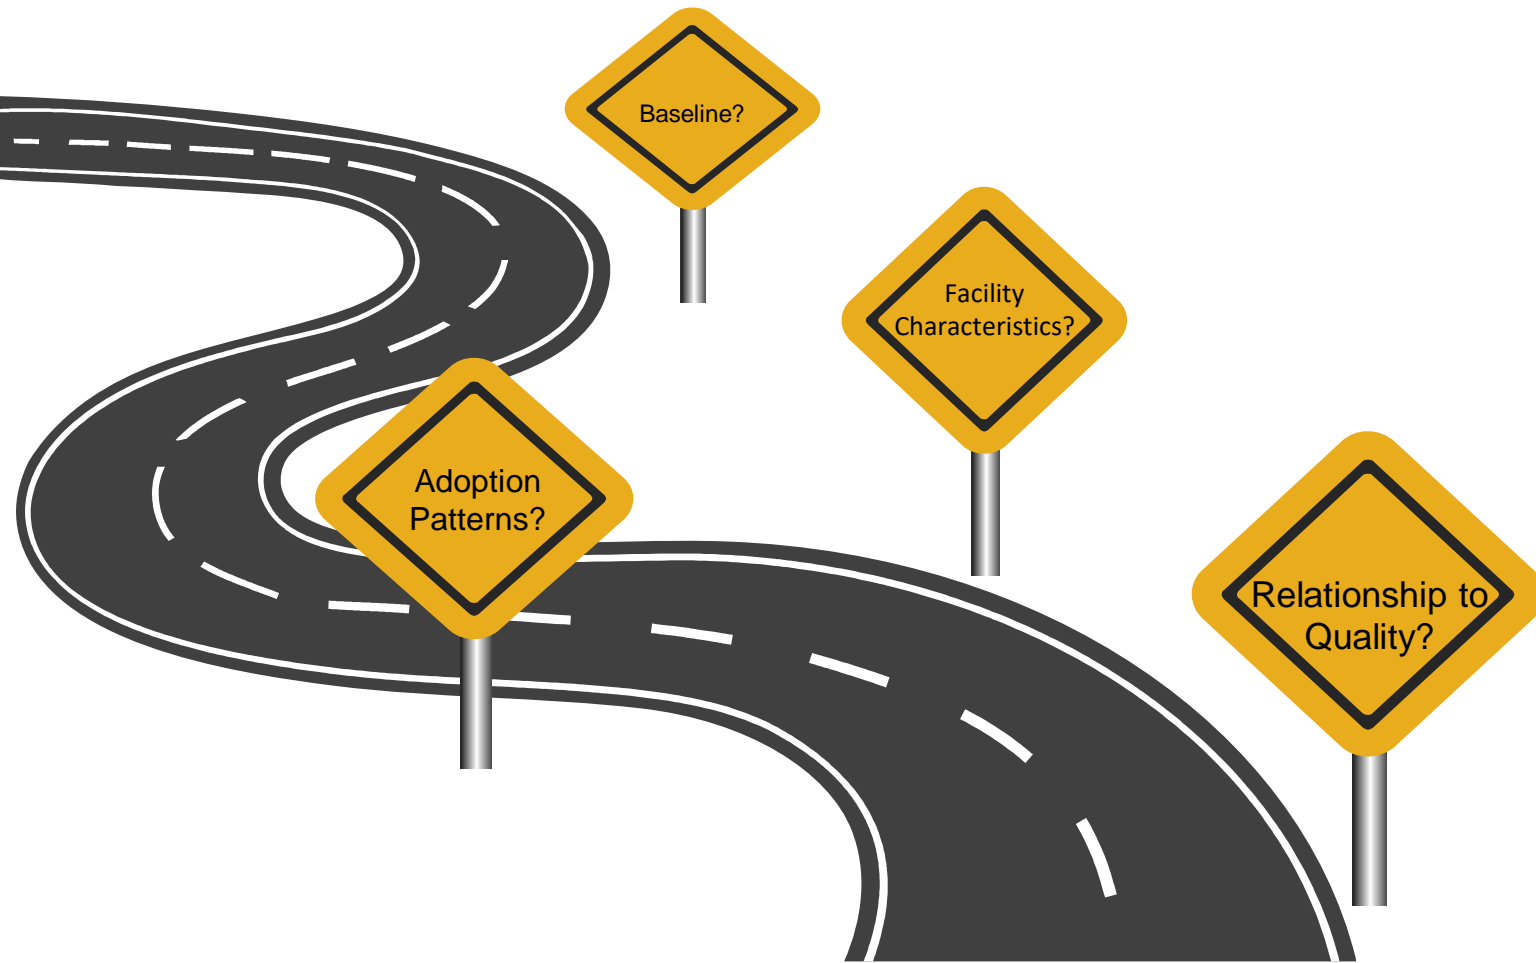

Background

Long Term Post Acute Care HIT Collaborative Roadmap, USA 2012-2014

- Care coordination – enable customer-centered care planning and coordination across providers
- Quality – Leverage technology to support accountability, measurement, and improvement of outcomes
- Business Imperative – Leverage technology to gain efficiency
- Customer-Centered – Use technology to build on person-centered care
- Workforce Acceleration – Prepare the workforce to leverage technologies

Questions Left from Current Roadmaps

Framework for Assessing IT Maturation

Attributes of IT Maturity	Domains of Health Care	
	Resident care	Clinical support (Lab, Pharmacy, Radiology)
Capability	Resident care activities supported by technology	Clinical processes supported by technology
Extent of Use	Technology used in resident care activities	Technology used in clinical support
Integration (Internal and External)	Degree of integration of resident care technology	Degree of integration of clinical support technology

Components of Health IT Maturation: Capabilities vs. Extent of Use, Integration

CLINICAL NOTES

THERAPY/TREATMENT PLAN

Advance directives

Medical history and physical

Physician Orders

ACTIVITIES OF DAILY LIVING (ADLS) MANAGEMENT

Resident/Patient demographics (ADT)

Quality Measures

Allergy list

Laboratory Tests

Radiology Results

Medication reconciliation

Nursing care plans and flow sheets

Diagnosis or condition list

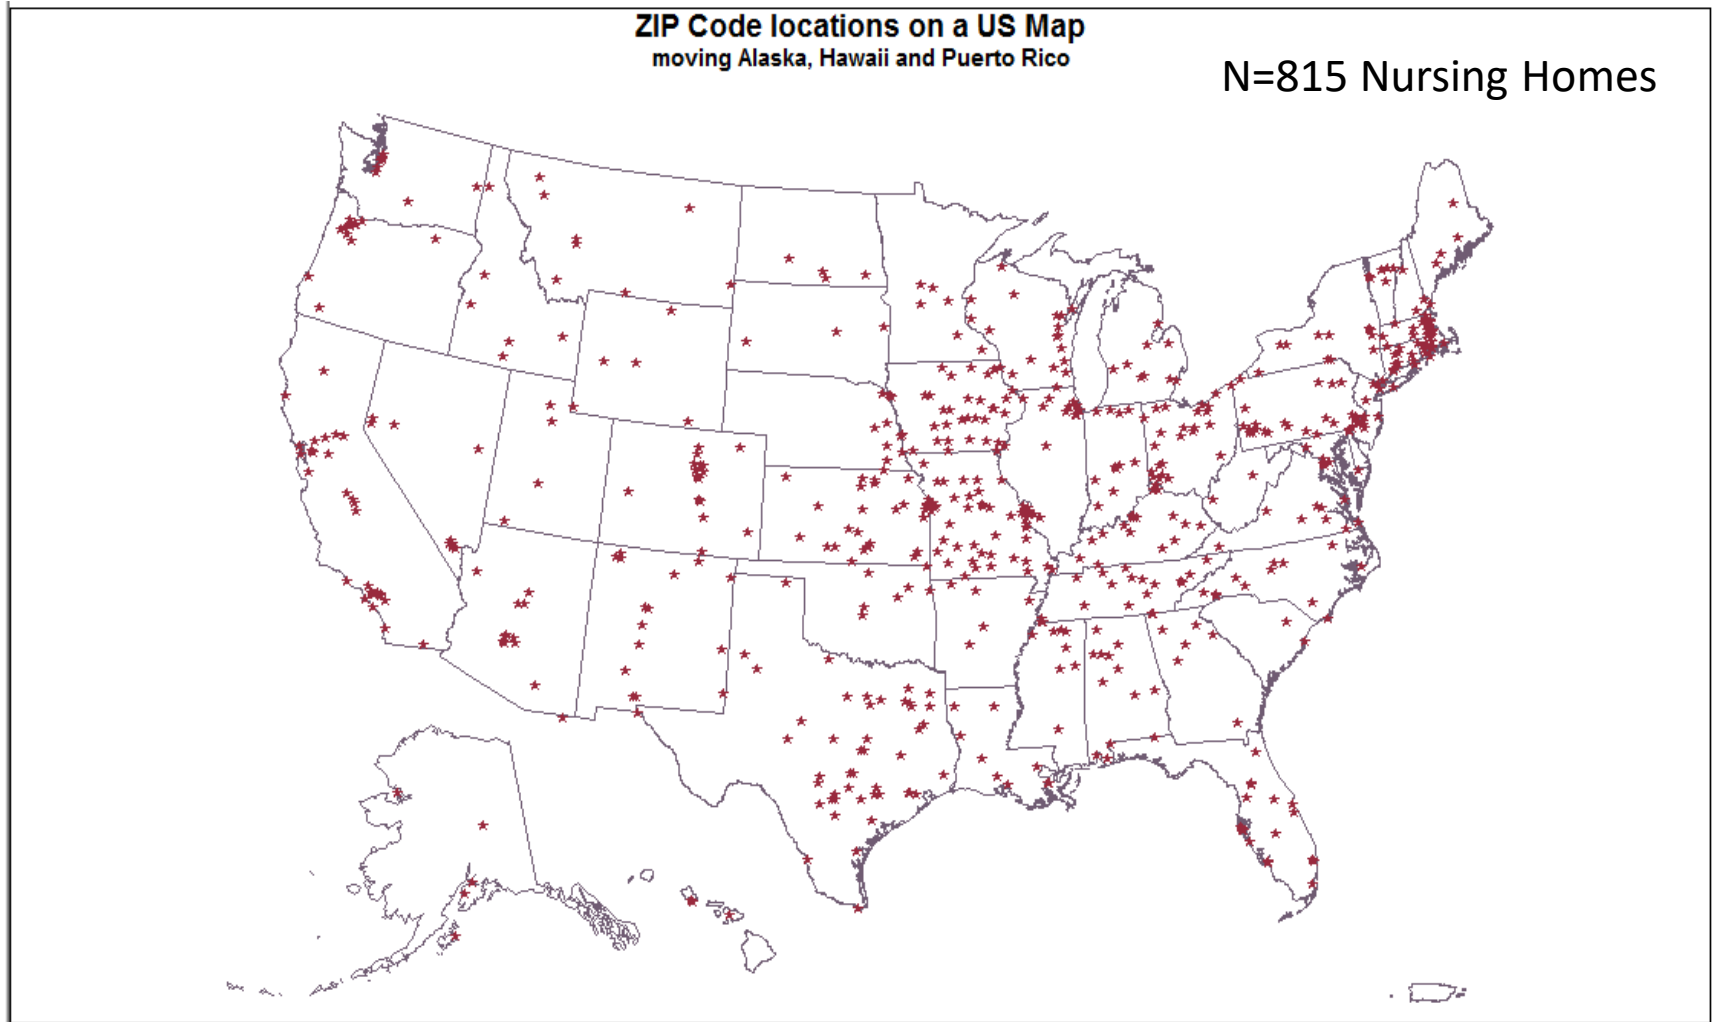

Secure Messaging

Nursing Orders

Medication administration record (eMAR)

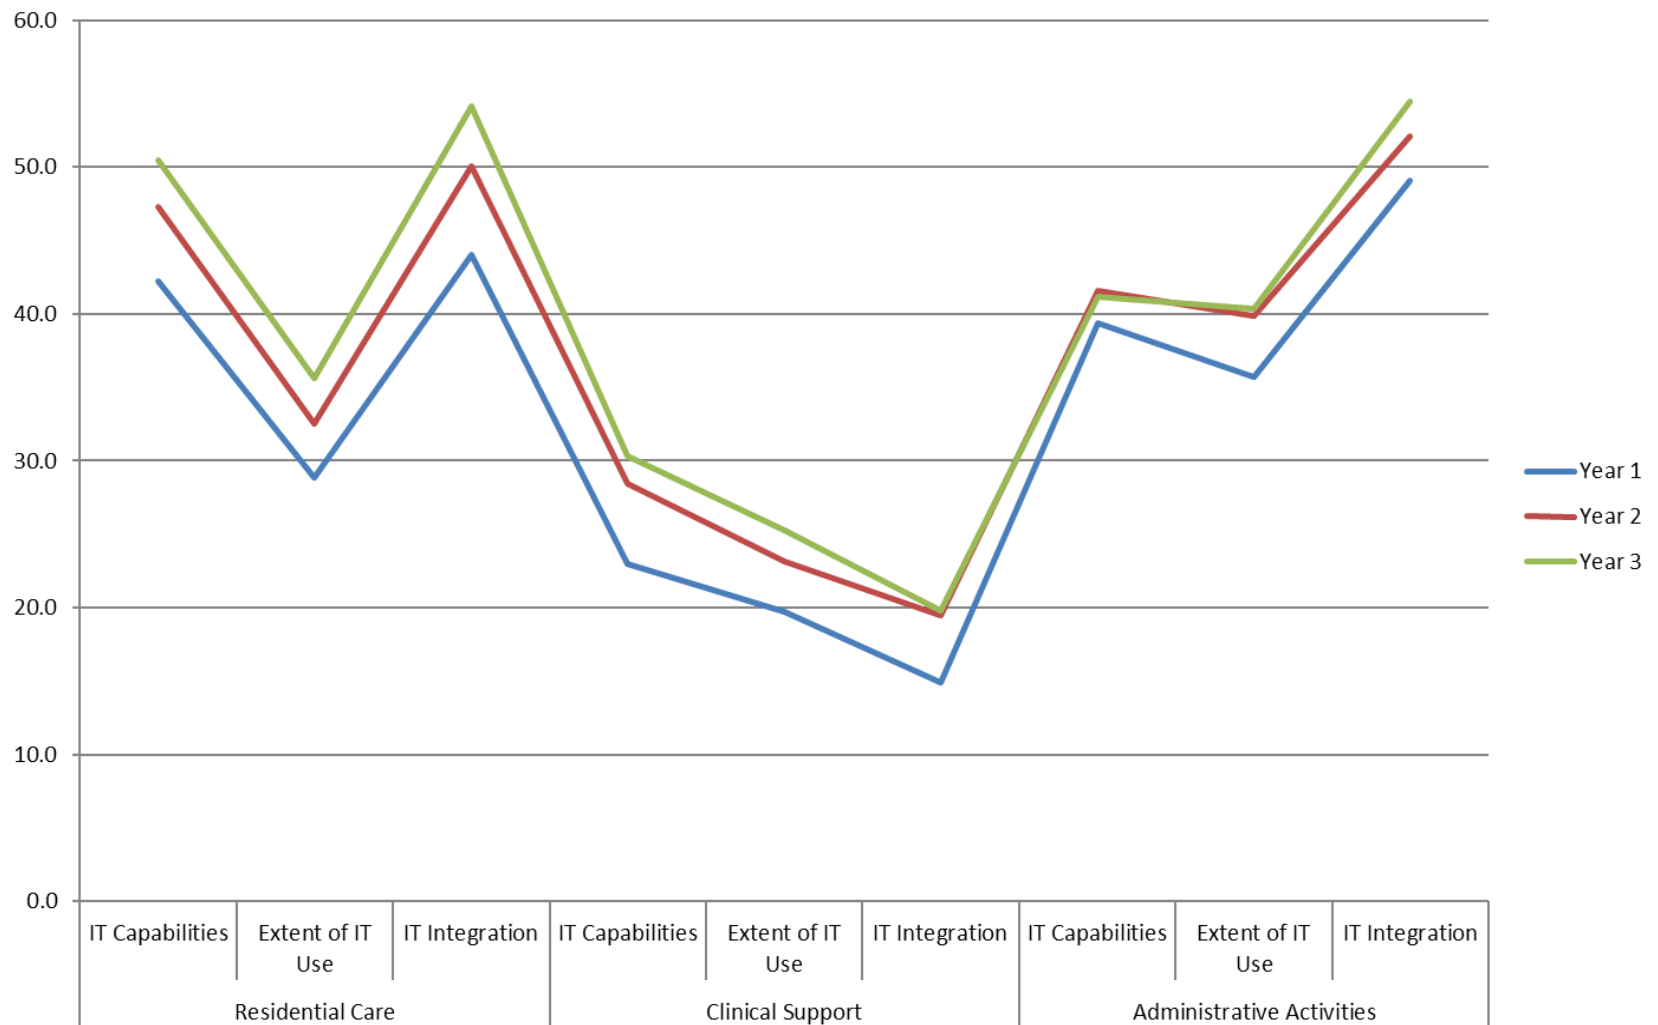

Vital signs (e.g., blood sugar, O2 levels)

Ongoing Studies in IT Maturation, USA

*Agency for Healthcare Research Quality, 2013-2018; 2017-2022 (PI: Alexander)
A National Report of Nursing Home Quality Measures and Information Technology*

Ongoing Studies in IT Maturation, USA 2013-2017

Agency for Healthcare Research Quality, 2013-2022 (PI: Alexander)
A National Report of Nursing Home Quality Measures and Information Technology

Statistical Differences Between Year 1 and Year 2 Change in IT Adoption and Quality Measures.

Health Domain	IT Measure	QM	QM Name	R ² Y2-Y1 Differ	pvalue
Administrative	IT Capabilities	402	% LS Who Report Mod to Severe Pain	0.03	0.003
		404	% LS Who Loose to Much Weight	0.02	0.02
		406	% LS Cath Inserted and Left in Bladder	0.02	0.02
		407	% LS with UTI	0.02	0.04
	Extent of IT Use	401	% LS ADL Needs Increased	0.02	0.02
Resident Care	IT Capabilities	434	% SS Newly Received an Antipsychotic Med	0.02	0.03
	IT Integration	408	% LS who have Depressive Symptoms	0.02	0.04
		430	% SS Assessed/Given Pneumococcal Vaccine	0.02	0.04
Clinical Support	IT Capabilities	419	% LS Received an Antipsychotic Med	0.04	0.0003
	Extent of IT Use	415	% LS Assessed/Given Pneumococcal Vaccine	0.04	0.02
	IT Integration	409	% LS Who Were Physically Restrained	0.02	0.005

Research Aim

Explore the dimensions of IT maturity used to support resident care, clinical support in NHs in New South Wales, Australia.

Research Efforts

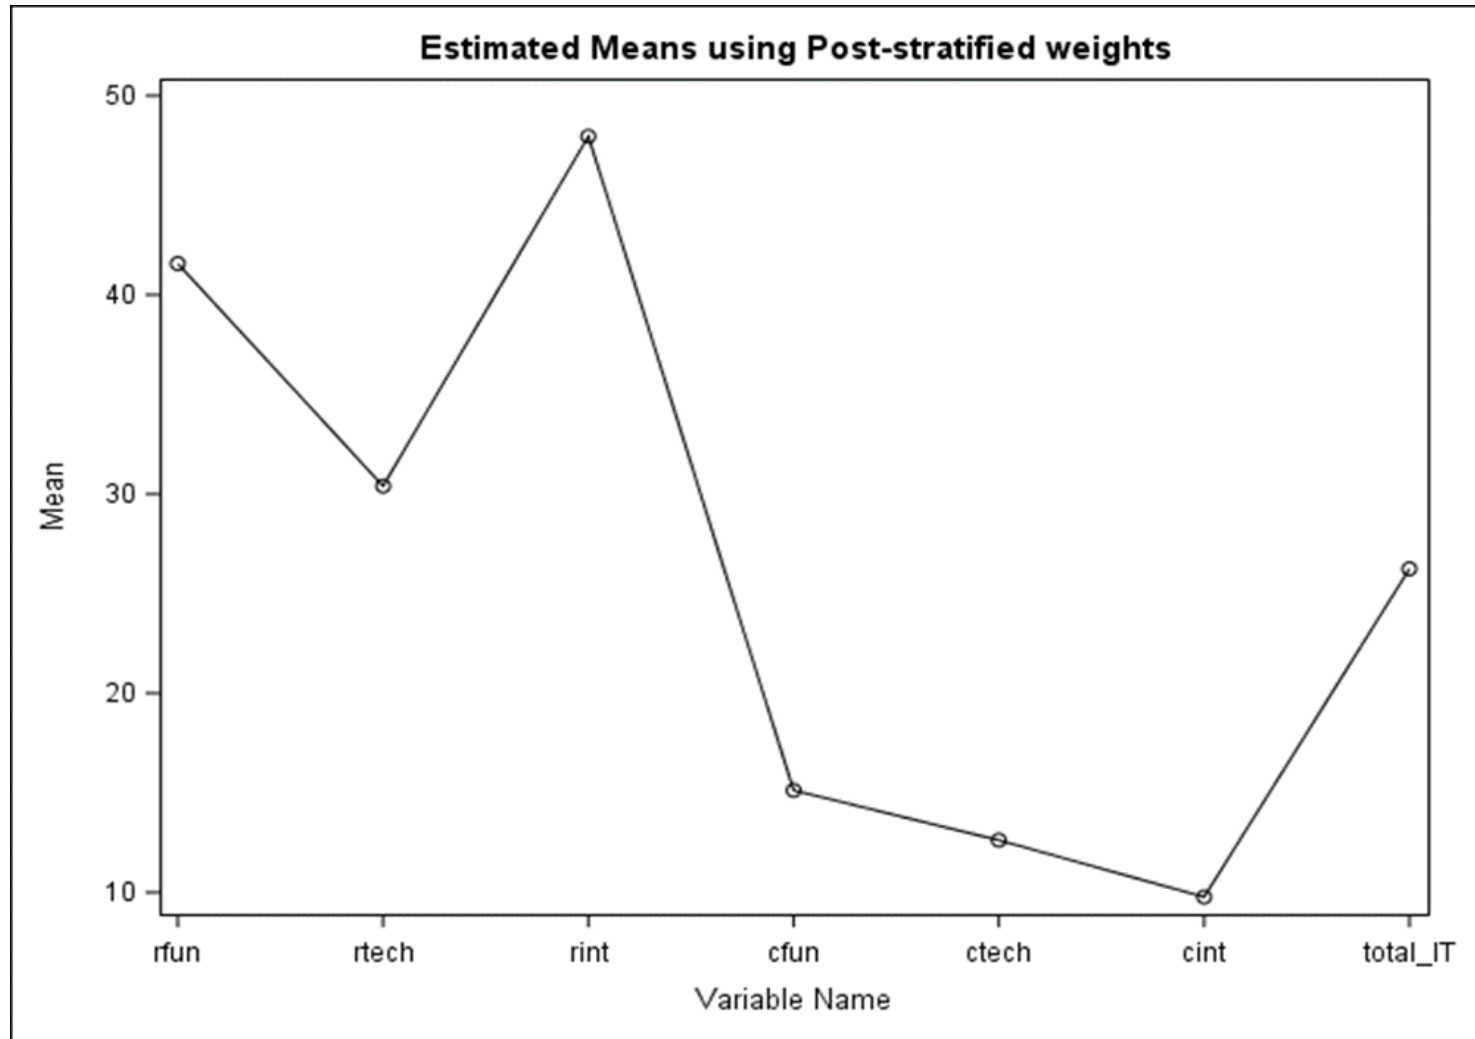

Interviewed 45 Aged Care Administrators from NSW, Queensland, ACT, South Australia, New Zealand

Adapted a US survey describing IT capabilities, extent of IT use, and degree of IT integration in resident care and clinical support to an Australian audience

Conducted a statewide survey in NSW Australia
130 useable responses out of 876 homes in NSW for
a response rate of $130/876 = 15\%$

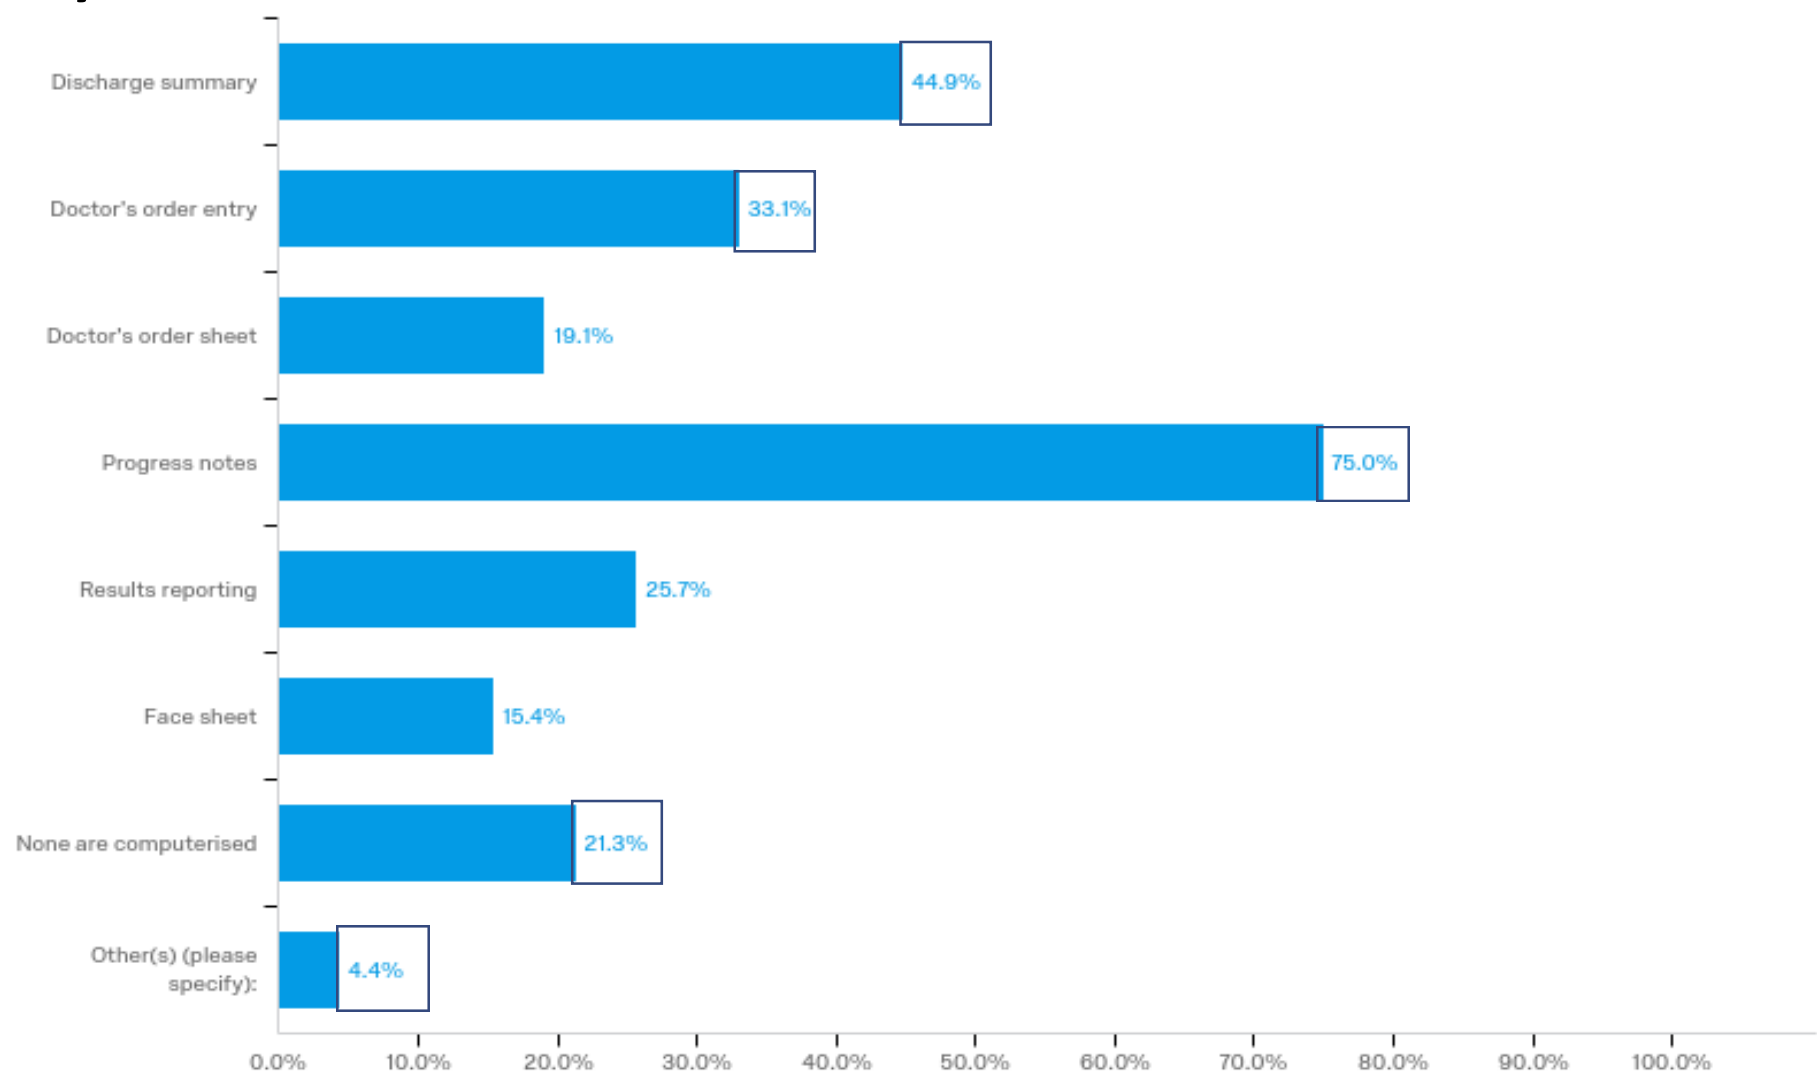

Overall Results IT Maturation

N=130 Facilities

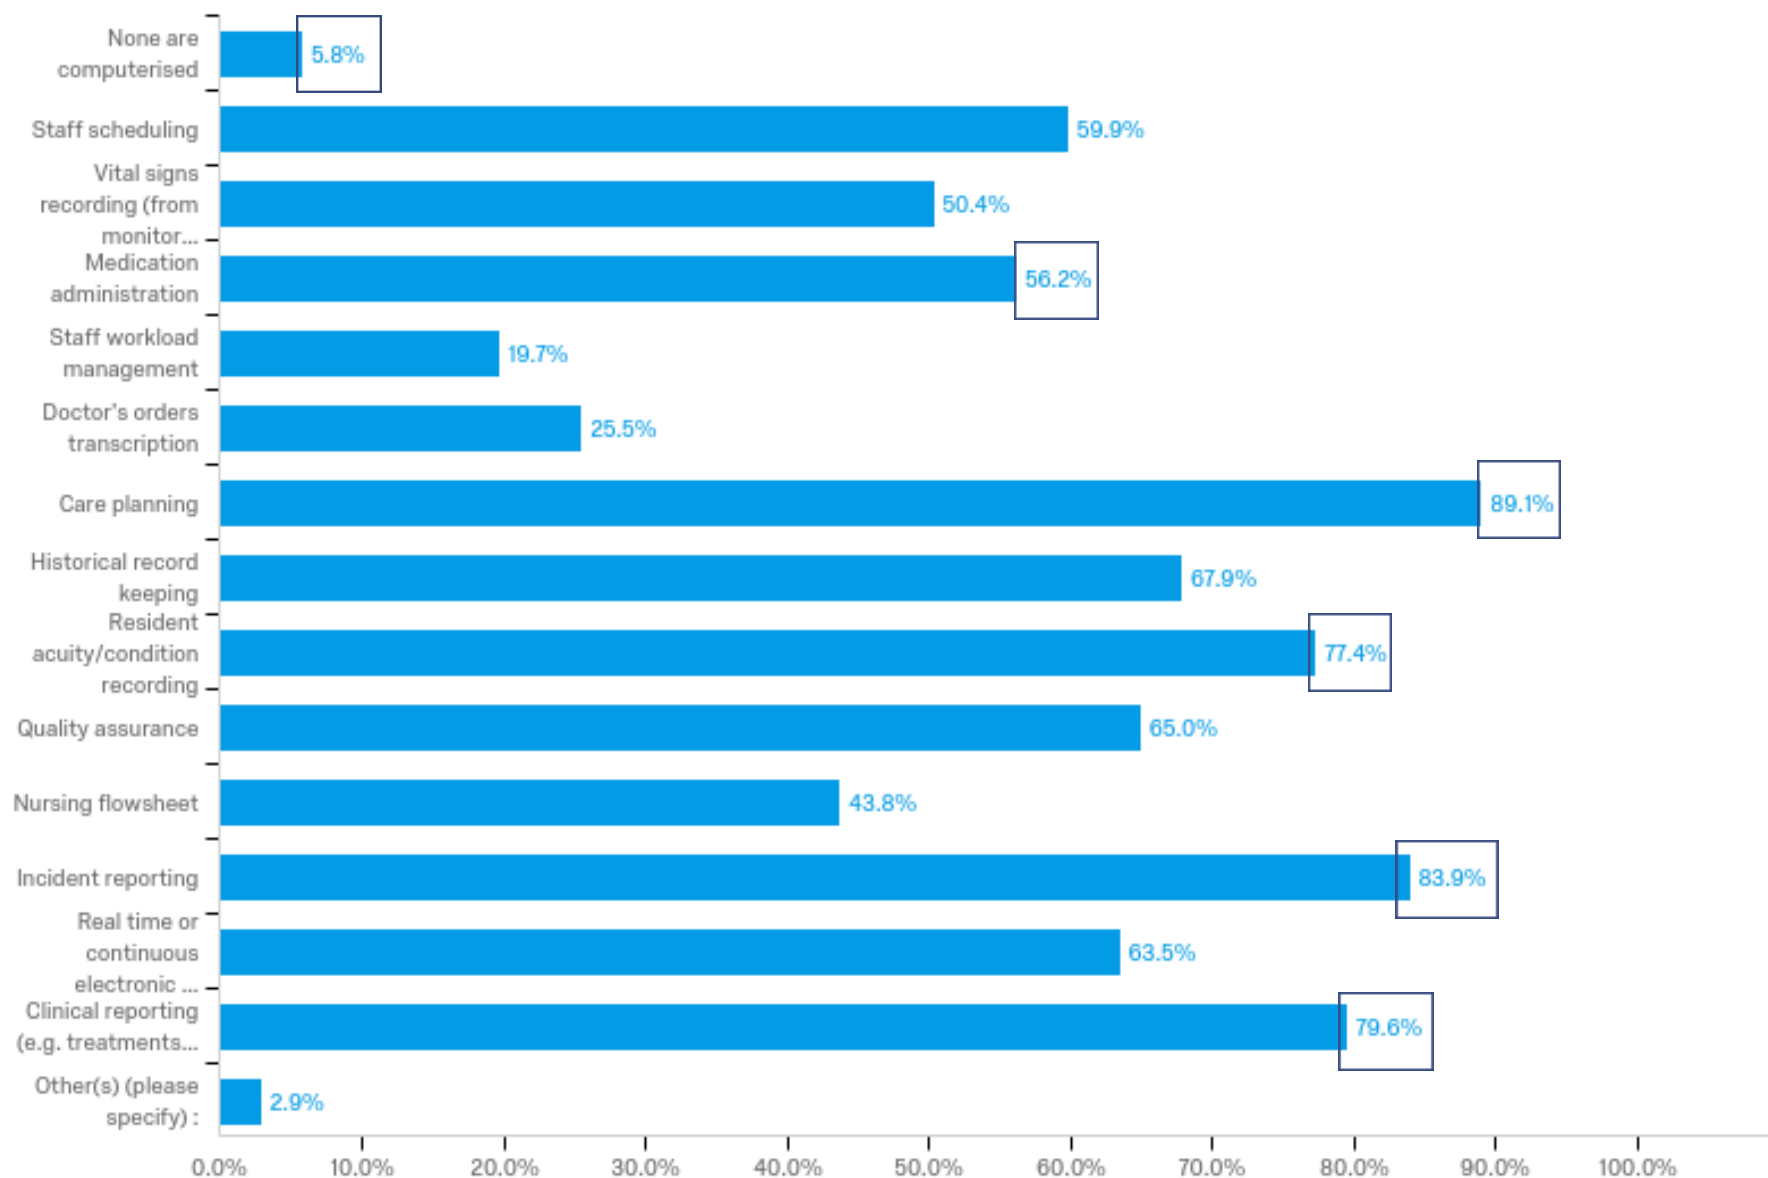

Resident Care Activities - Refers to those computer-based applications in support of physicians, nurses, and ancillary staff.

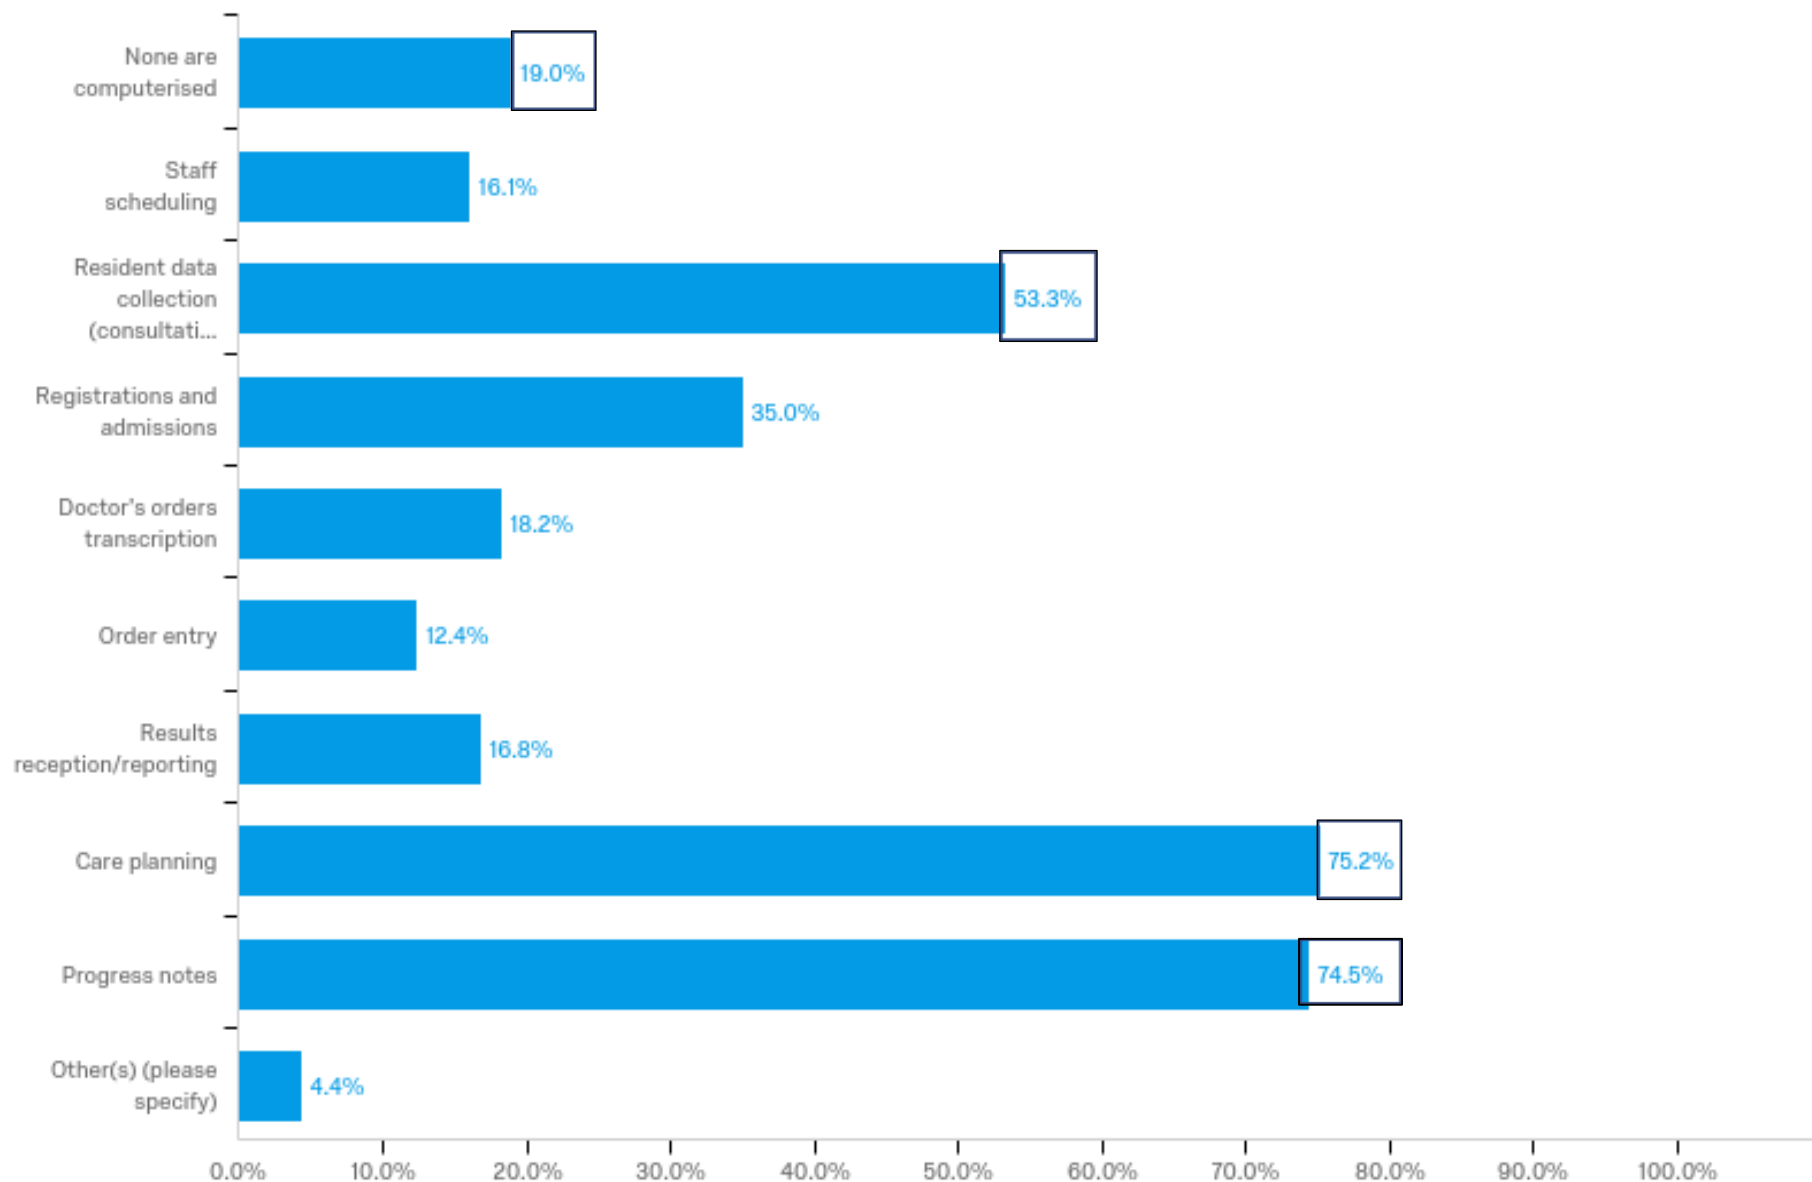

Physician

Nursing

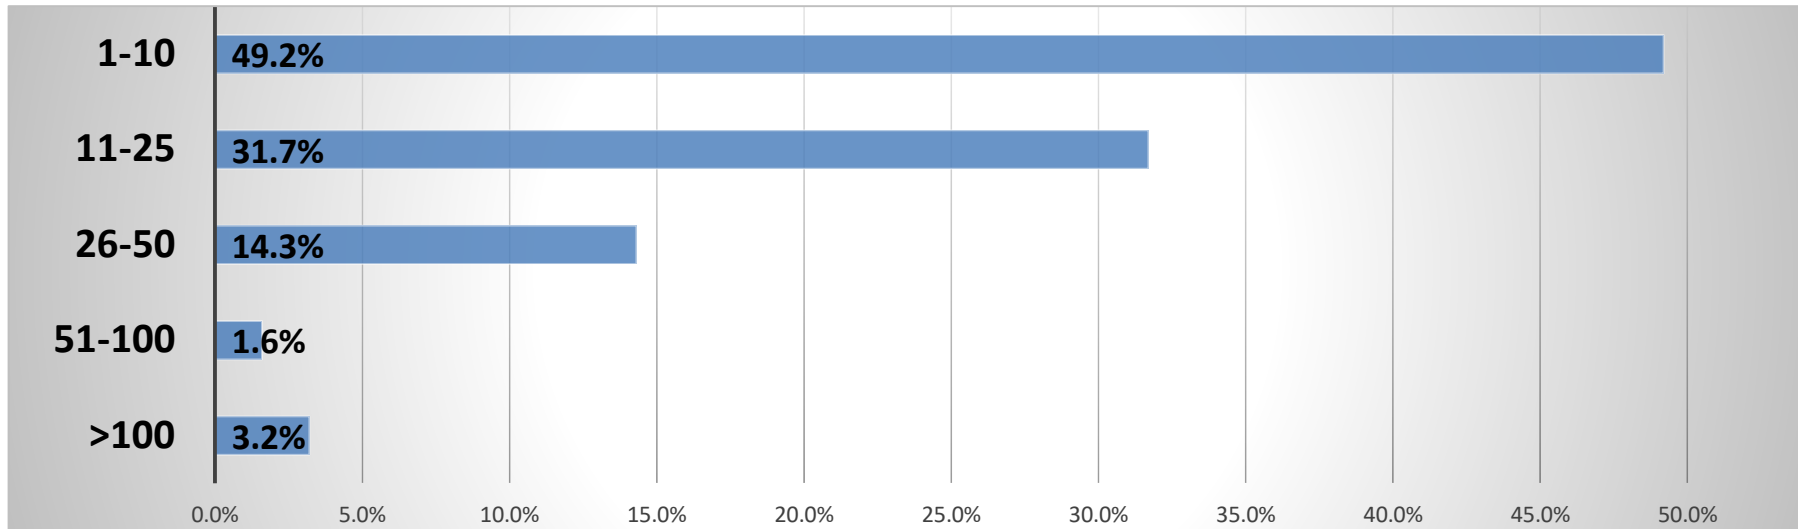

PT/OT

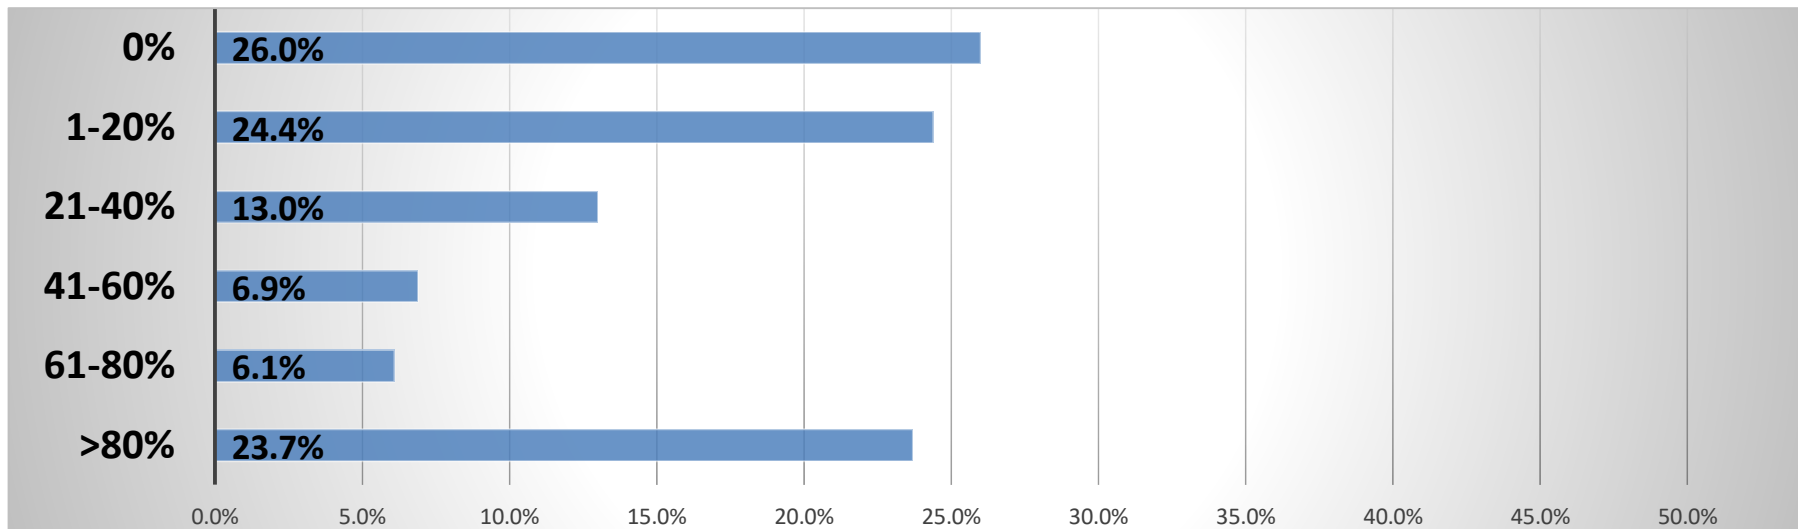

PHYSICIAN STATS

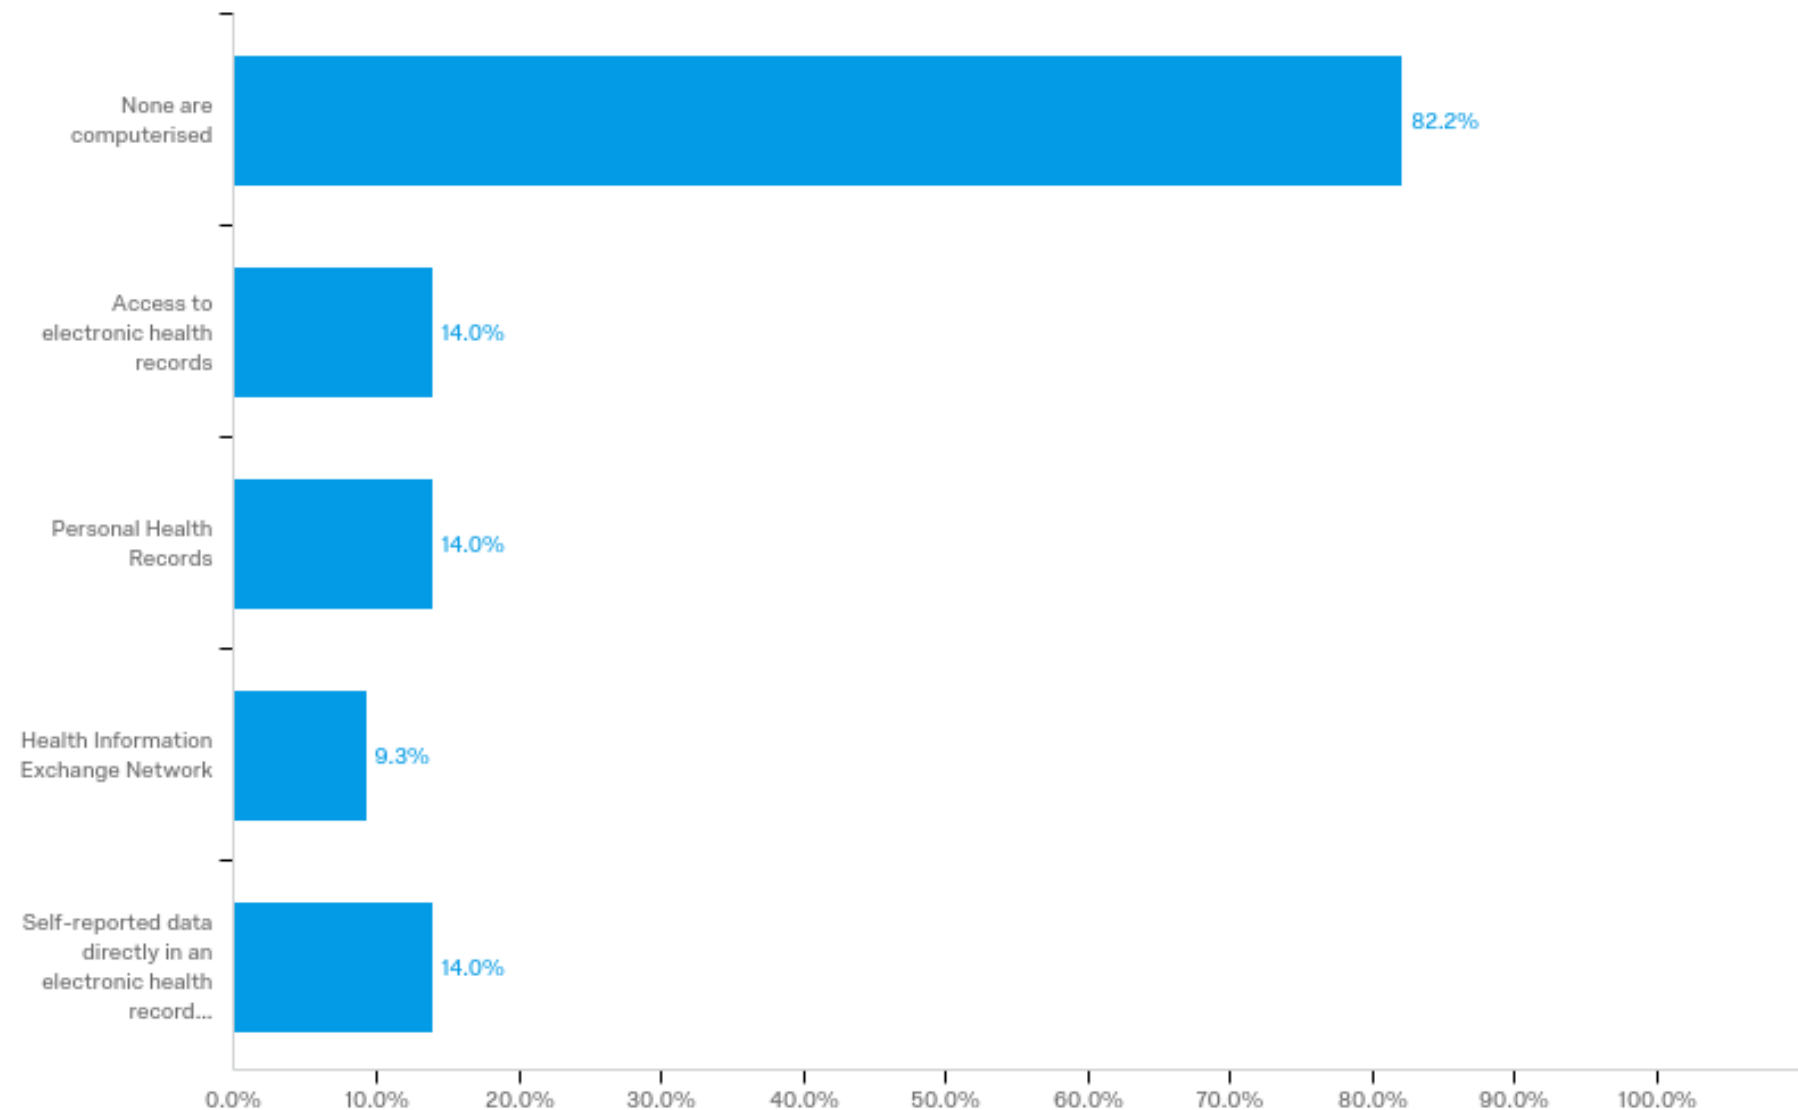

How many physicians see residents in a typical year?

What percentage of these physicians are intensive users of your IT system?

EXTENT OF INTEGRATION

Not available (%) Barely used (%) Somewhat Used (%) Extensively Used (%)

Clinical Support – Lab

Laboratory systems are integrated with other computerised systems (e.g. nursing) in your aged care facility

92.7 0.7 4.4 2.2

Your laboratory systems are integrated with external entities' (other hospitals, clinics, other aged care facilities, etc.) computerised information systems

94.8 2.2 0.7 2.2

Clinical Support – Radiology

Radiology systems are integrated with computerised systems in other units (nursing, PT/OT, etc.) in your aged care facility

98.5 0.7 0.0 0.7

Your radiology systems have an interface with external entities' systems (other hospitals, clinics, aged care facilities, etc.)

99.3 0.7 0.0 0.0

Clinical Support – Pharmacy

Pharmacy systems are integrated with computerised systems in other units (nursing, OT/PT, etc.) in your aged care facility

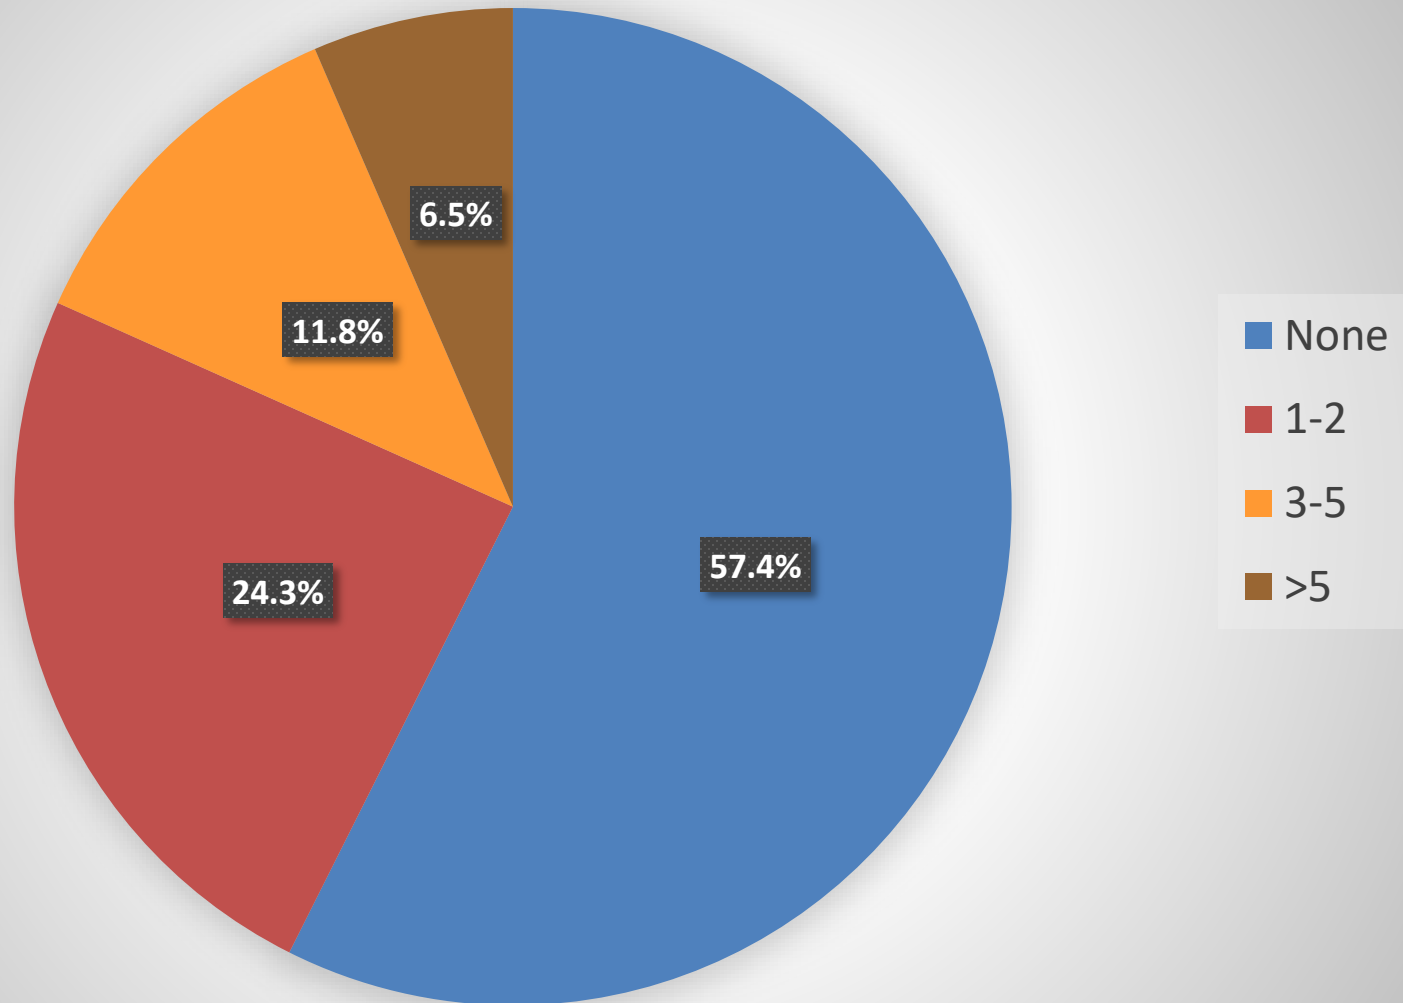

54.1 1.5 8.0 36.5

Your pharmacy systems have an interface with external entities' systems (e.g., pharmacies, other hospitals, aged care facilities, etc.)

83.9 3.6 0.7 11.7

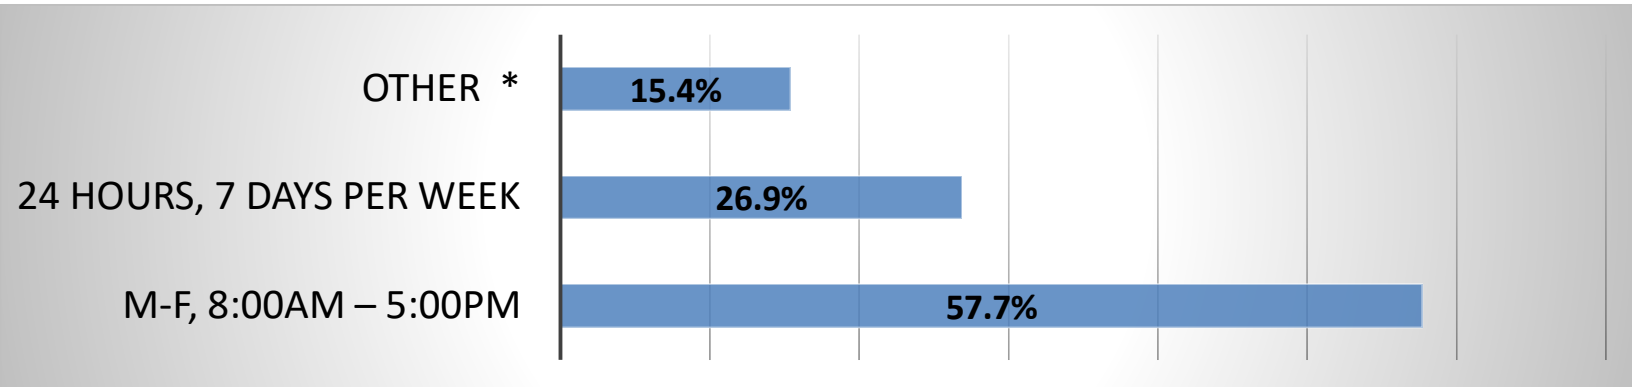

IT Personnel in the Aged Care Facility

(excluding long-term consultants or sub-contractors)

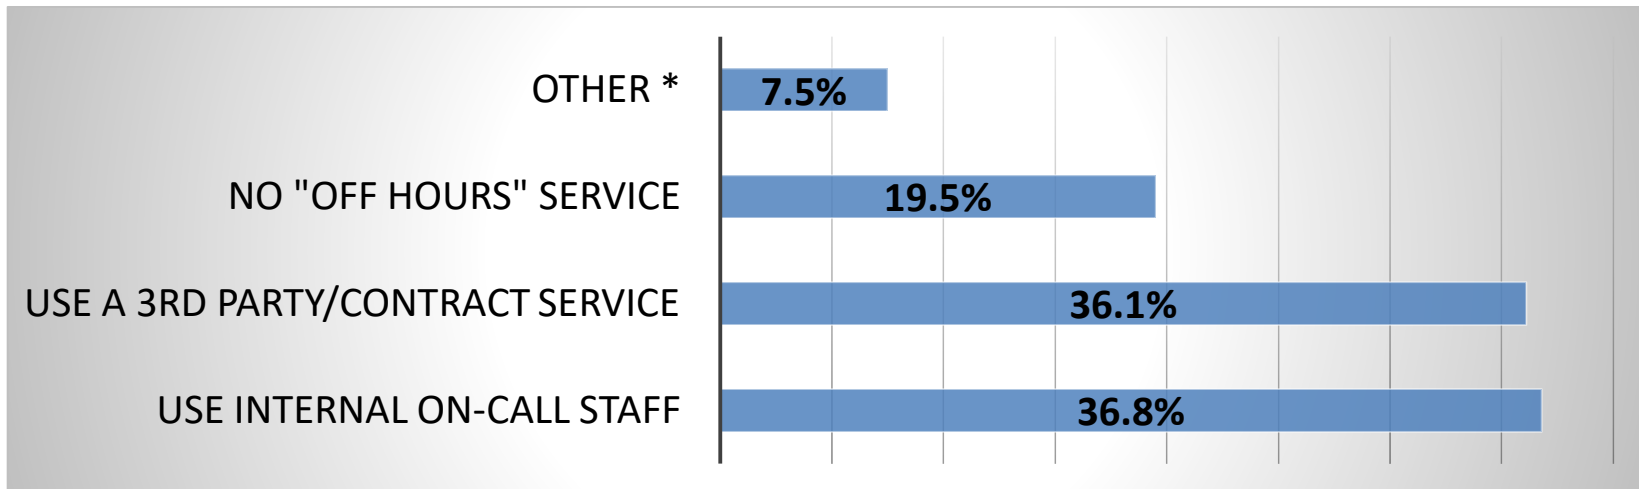

IT STAFFING AND SYSTEMS

Usual hours of IT operations?

* AS NEEDED, M + W 9AM-6PM, 8:30-4, QRS MANAGER IS AN IT CONSULTANT, NOT SURE, LOCATED HEAD OFFICE, 9AM - 5PM HEAD OFFICE ONLY, ALL DONE REMOTE, IT BASED AT CORPORATE OFFICE

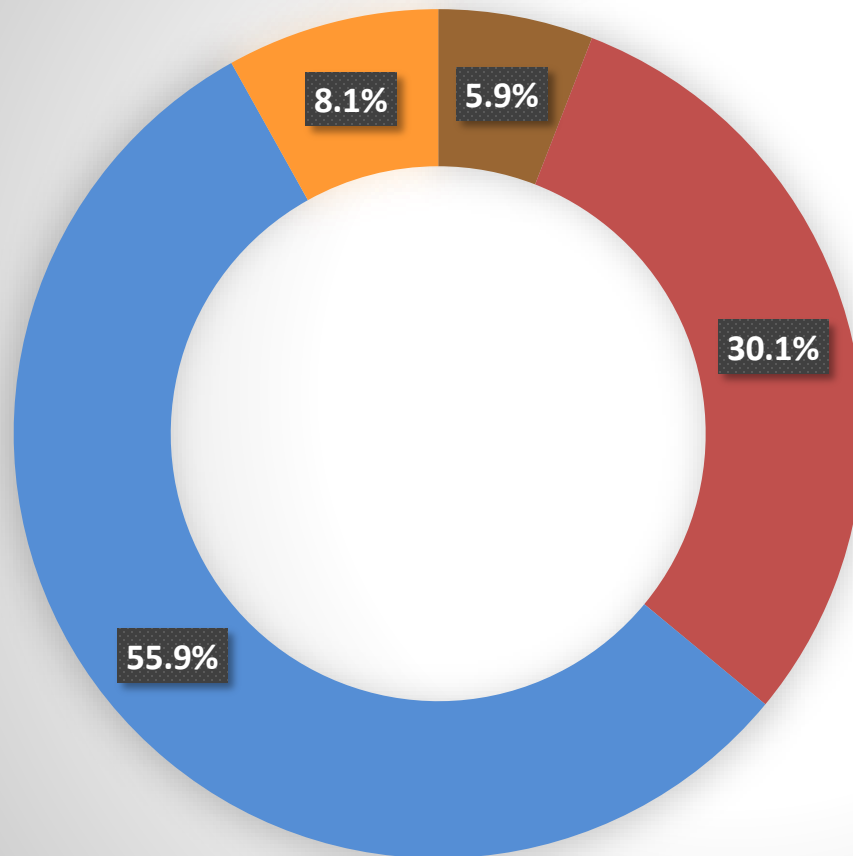

How are "off-hours" IT issues handled?

* IT DEPARTMENT IN HEAD OFFICE, CONTRACTOR WILL ATTEND SITE IF REQUIRED, ALL DONE REMOTE, IT BASED AT CORPORATE OFFICE, AFTER HOURS NUMBER AVAILABLE IF NEEDED

ABOUT THE RESPONDENTS

Highest level of Education

■ High school

■ Undergraduate (Bachelor)

■ Postgraduate education/degree

■ Other *

* CERT III, DIPLOMA, DIPLOMA TEACHING, DIPLOMA IN BUSINESS MANAGEMENT, DIPLOMA CERTIFICATE, REGISTERED NURSE HOSPITAL TRAINED, MASTERS (LEADERSHIP/MANAGEMENT/NURSING)

Job Titles

ACTING SERVICE MANAGER
 ADMINISTRATION
 ADMINISTRATION WARD CLERK
 ASSISTANT DIRECTOR CARE SERVICES
 ASSISTANT FACILITY MANAGER
 BUSINESS MANAGER/RN DWI
 CARE DIRECTOR
 CARE MANAGER
 CARE MANAGER/CLINICAL NURSE
 CONSULTANT
 CARE SUPERVISER
 CEO
 CLINICAL MANAGER
 CLINICAL NURSE MANAGER
 CLINICAL PRACTICE MANAGER
 CONTINUOUS QI OFFICER

DEPUTY DIRECTOR OF CARE
 DEPUTY SERVICE MANAGER
 DIRECTOR CARE SERVICES

All 137 responded	7 provided no information	33 provided no information

Key Questions about the Future

1. What are the pattern of changes in overall IT Maturity over time and what links exist between the changes in ITS and NH attributes.
2. Are patterns of overall IT Maturity changes over time associated with changes in Quality Measures over time.
3. Which relationships between specific types of IT Maturity (dimensions and domains), facility attributes (Staffing, Facility, and Market Characteristics), and Quality Measures create the best opportunities for quality improvement.

Thank you
