

DATIUM INSIGHTS

THE BEST IN DATA-DRIVEN AUTOMOTIVE PRICING INTELLIGENCE

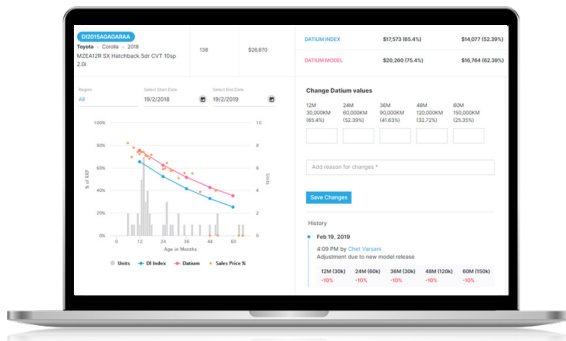

About Us

At Datium Insights, we use advanced machine-learning algorithms to build high accuracy pricing tools that help automotive businesses make better decisions.

We leverage the largest used car sales database in Australia – more than 1 million transacted sales prices – to unlock trends and patterns in the market. As thought leaders in valuations and residual value forecasting, we actively participate in industry research to provide greater transparency to the marketplace.
