

Sump plug washer now included in all Ryco Japanese Truck Service Kits

Ryco Filters now include the OE style sump plug washer as standard in their entire range of Japanese service kits to suit Isuzu, Hino, Fuso and UD Applications. Ryco commercial service kits include all oil and fuel filters and where applicable PCV filters to suit 50 model specific truck applications. Some kits, denoted with an "A" also contain air filters. Ryco Commercial offers the largest range of Japanese kits in the Australian market.
